

BuildOrbit — Feature & Test Coverage Report

Overview

This matrix provides a comprehensive accounting of every feature implemented in the BuildOrbit project. It serves as an internal QA tracking sheet and client verification document.

1. Authentication & Users

Feature	Module	Route	Role	UI	API / Action	Data
Login / Auth	Auth	/login	ALL	Implemented	NextAuth / Credentials	User Login
Role-Based Redirect	Auth	Middleware	ALL	N/A	Middleware	N/A
User Directory	Workforce	/workforce/employees	ADMIN, HR	Implemented	getEmployees	User Emp

2. Dashboard

Feature	Module	Route	Role	UI	API / Action	Database	View / Settings
Global Analytics	Dashboard	/	ADMIN, HR	Implemented	dashboardStats	Multiple	View
Engineer Self-Service	Dashboard	/	ENGINEER	Implemented	getEmployeeDashboard	Multiple	View

3. Attendance & Location (Geofence)

Feature	Module	Route	Role	UI	API / Action
Geofence Verification	Attendance	/attendance/portal	ENGINEER	Implemented	Geolocation API
Mark Attendance	Attendance	/attendance/portal	ENGINEER	Implemented	markAttendance
View Attendance Log	Attendance	/workforce/attendance	HR, LEAD	Implemented	getAttendances
Manage Sites	Sites	/admin/sites	ADMIN, HR	Implemented	createSite

4. Leave Management

Feature	Module	Route	Role	UI	API / Action
Apply for Leave	Leave	/workforce/leave/apply	ALL	Implemented	applyLeave
Medical Leave Upload	Leave	/workforce/leave/apply	ALL	Implemented	Server Action
Leave Approvals	HR	/hr/leave-approvals	HR, LEAD	Implemented	approveLeave
Leave Master	Settings	/admin/leave-types	ADMIN	Implemented	updateLeaveType

5. Payroll Processing

Feature	Module	Route	Role	UI	API / Action	Datab
Unpaid Leave Deductions	Payroll	N/A	HR	N/A	calculatePayroll	Payr
Generate Draft Payroll	Payroll	/hr/payroll	HR	Implemented	generatePayroll	Payr
Payslip Access	Portal	/workforce/payslip	ALL	Implemented	getPayslip	Payr

6. CRM & Leads

Feature	Module	Route	Role	UI	API / Action	Database	Workflo / Test Status
Lead Pipeline	CRM	/crm/leads	ADMIN, LEAD	Implemented	getLeads	Lead	Verified
Create/Edit Lead	CRM	/crm/leads	ADMIN, LEAD	Implemented	createLead	Lead	Verified

7. Reports & Analytics

Feature	Module	Route	Role	UI	API / Action	D
Attendance Trends	Reports	/reports/attendance	ADMIN, HR	Implemented	attendanceReport	/
Payroll Costs	Reports	/reports/payroll	ADMIN	Implemented	payrollReport	I
Sales Funnel	Reports	/reports/leads	ADMIN, LEAD	Implemented	leadsReport	I

8. Security & Notifications

Feature	Module	Route	Role	UI	API / Action	Database
Login Audit Trail	Admin	/admin/login-activity	ADMIN	Implemented	getLoginLogs	LoginActiv.
Transactional Email	Notif	Background	ALL	Email	Resend / React Email	N/A

Conclusion

All core modules (Phases 1-10) are correctly mapped to Prisma schema, have corresponding Server Actions, and present user interfaces protected by NextAuth middleware. Testing validates that the application meets architectural requirements.
